I have been much interested in your editorial of last evening entitled "The Health of Our Children." both in its diagnosis and the remedy proposed in the Kelliher bill now pendas you did not state the substance words in doing so. The title is: "An act requiring the examination of all school children to ascertain if they able Tariff Prevails. HOT AND have defective eyesight or hearing or diseased teeth, or if they are addicted to mouth breathing." Section Rooms with or without I makes it the duty of the teacher to examine the children for such defects and if she thinks they exist it is her duty to notify the parent of had observed any lack of health, such defect and explain the "necessity of medical attendance for such Section 2 provides that the state board of health shall prescribe 3 requires the tests at the beginning of the school year or when the child first attends. Section 4 makes it the duty of the board of education to enforce the act. Section 5 authorizes the trustees to employ a doctor to make the examination in place of the teacher. This bill means nothing less than compulsory medi-Do parents desire that the responsibility for their children's health and the mode of its preservation shall be taken from them and placed in the hands of the school teacher who shall be authorized to command 'medical attendance" whenever in his judgment a child is "defective?" for no other construction will be placed by the medical fraternity upon the language of section 1. In other states a similar provision of law has been thought to justify a rule by the board excluding children from at tendance at school until "medical at tendance" is resorted to by the par

Notice is further given that any an

objections to this bill. First, it deprives the parent of the right to determine when his child needs medicine, or, if defective, the method of treatment to be followed, for "medical attendance" means little else than the drug or the knife. There is no appeal from the judgment of the teacher on the child. Once he has "explained" the "necessity for ng in the legislature, but inusmuch be under the ban until that order is medical attendance" the child will complied with, and this order is to of that bill will you permit me a few be made by a teacher, unskilled in the arts of diagnosis, surgery or

medicine. Let the order be made and the parent will be on his way to the doctor's office for some operation or treatment which, from the apparent health of the child, he never dreamed was necessary for if he he would have been active in his child's behalf long before the teach er's examination. This law is made compulsory for the purpose of comrules for making such tests. Section pelling unwilling parents to seek "medical attendance" for their children, otherwise there would be no need of its most prominent feature. It is needless to say that this will greatly increase the doctor's bill in the homes of all school children found "defective,"

But perhaps the board will appoint a doctor to examine instead of the teacher, for the able and high-minded gentlemen in that profession will not overlook such an opportunity. Then the expense of their service, and they should be paid if they work. will be a charge on the school funds. which in Tonopah are barely sufficient to meet present needs. This will necessarily mean higher taxation to provide further funds. To many persons, awake to the

tendencies of the times, however, this bill will seem a menace to personal freedom. What right has the legis lature to delegate to the teacher to say to the parent, "You must hire the dentist for your child," or "your child breathes through its mouth, employ medical attendance," or "the child's eyes are not perfect, get somebody to fit some glasses on,?" such a law can be passed and enforced, against your children, why may not a similar one be passed imposing a similar examination upon all adults before they shall be allowed to vote, or perform any other function of a public nature? Insofar as this bill is compulsory it is objectionable. If it intended merely to secure information to be submitted to the parent, doubtless much wellgrounded opposition would be allayed, but so long as the right to say what is best for the child's health is attempted to be taken from the parent, and a form of expenses imparent, and a form of expenses imparent, and a form of expenses imparent the parent of the pare the parent might not endorse, is substituted, it behooves liberty-lov-

Granted Insurance After Lung Trouble

There are so many cases of Consumption reported where the details show the disease started with a cold or a cough, that it is really surprising that people are not more anxious to immediately stop these apparently minor troubles. Our advice is "stop the cough or cold, if possible, without delay." Otherwise mure serious troubles are likely to follow. If the medicines you are taking do not bring relief, try Eckman's Alterative, as this man did.

237 Dean st. Brooklyn, N. Y.
"Gentlemen: I am giving you below a brief history of my case, which I trust you will use for the benefit of those suffering from any similar troubles." "About a year and a half ago I

of those suffering from any similar troubles.

"About a year and a half ago I noticed that my health was rapidly falling, until at the end of six months my weight had fallen to 123 pounds. I was troubled with night sweats, a severe cough, and was very weak having in fact absolutely no amblion whatever. About this time I consulted a physician, who told me my lungs were affected. Not satisfied, I went to another doctor, who after examining me said that I was in the first stages of consumption. At this point I started to take Eckman's Alterative. The night sweats stopped almost immediately, my cough hecame looser and gradually disappeared. My weight is now 112 bounds and my physician has pronounced me perfectly sound—which, together with the fact that I have been accepted by two different insurance companies for insurance, makes me sure of my entire recovery by Eckman's Alterative. I should be very glad to communicate with any one who would be interested in my case."

(Sworn Affidavit)

(Sworn Affidavit) W. E. GEE.

Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever: Throat and Long Troubles and in the upbuilding the system. Does not contain poisons, oplates or habit-forming drugs. For saie by leading druggists Ask for hocklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.
